Rollerless Equalization Chain

S V I links you up with top quality rollerless equalization chain used on many electric surface-mount automotive lifts. Rollerless chain is supplied in convenient reels and meets or exceeds ANSI standards.

We also supply the rollerless chain connecting links to make installing new chain easy. A chain breaker tool can be supplied

for 3/4" to 1-1/4" pitch chain and will help simplify your task. Breaker tool replacement tips, screws, springs and handles are also available.

When ordering equalization chain simply measure the center to center distance from pin to pin on a link. S V I makes your chain requirements simple. Just give us a call.

<u>SVI Part Number</u>		<u>Description</u>
BH-7024	40 ft. Reel	1-1/4" Rollerless Equalization Chain
BH-7024-01		1-1/4" Pitch Connecting Link
BH-7025	50 ft. Reel	3/4" Rollerless Equalization Chain
BH-7025-01		3/4" Pitch Connecting Link
BH-7026	50 ft. Reel	1" Rollerless Equalization Chain
BH-7026-01		1" Pitch Connecting Link
BH-7027		Chain Breaker Tool - 3/4" to 1-1/4" pitch
BH-7027-01		Breaker Screw with Tip but no handle
BH-7027-02		Chain Breaker Pressure Tip
BH-7027-03		Chain Breaker Handle

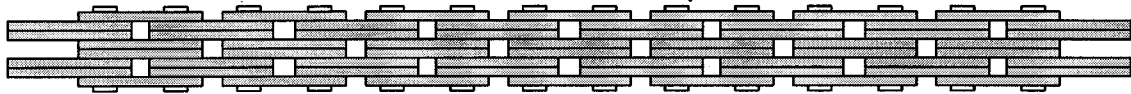

To Order: 800-321-8173 Fax: 800-899-1784

Leaf Drive/Lifting Chain

S V I's top quality Leaf Drive Chain is available in all the common sizes found on electric surface-mount automotive lifts. Leaf chain can be identified by matching the chain needed to the S V I chain pictured below and on the following pages. These are actual size drawings. The correct chain can also be identified by measuring

the pin-to-pin distance (pitch) plus the lacing (the number of chain pieces in the middle by the number of pieces facing out). Please also distinguish between AL Leaf chain and BL Leaf Chain. The difference can be determined by the thickness of each chain piece using the chart below. If you have any questions your S V I sales person will be happy to help.

Thickness

Pitch

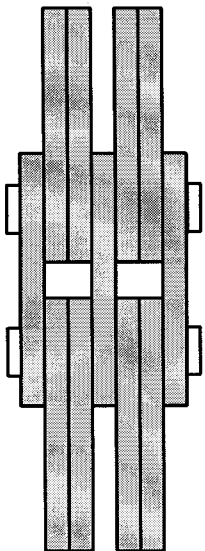

⊗ ⊗
4 x 4 Lacing

	Pitch	Thickness	Height
AL Chain	3/4"	.093"	.585"
	1"	.124"	.782"
	1-1/4"	.156"	1.024"
BL Chain	3/4"	.124"	.713"
	1"	.156"	.915"
	1-1/4"	.187"	1.191"
