

COATS®

XR 1750 Wheel Balancer

VERSATILITY

SPEED

- 1 Full Color Video Display**
3-D and 2-D modes. Provides clear directions and operator prompts for easy balancing. Simultaneous display of static and dynamic data identifies any excess residual static imbalance.
- 2 Positioning Pedal**
Clamps wheel into stable position for easy weight placement.
- 3 Easy Command Selection**
Simple numbered button system speeds technician input and mode selection.
- 4 Onboard Air Supply***
No need to move to tire changer for rotate and balance jobs. Adjust tire inflation at the balancer.
- 5 2-D or 3-D Auto Data Entry**
Auto A&D arm and available touchless digital sensor system collects parameters for analyzing balance. Drop the hood and the balancer begins its cycle.
- 6 Adapter Rack**
Puts most commonly used accessories right at the technician's fingertips.
- 7 Direct Tape-A-Weight Placement And Behind the Spoke Capability**
Eliminates guesswork. Can do most Tape-A-Weights in just one spin.
- 8 12 Balancing Modes**
Several alloy options, behind the spoke (the best in class), plus patch balance and PAX.
- 9 Balancing Solutions**
CD-ROM with XR video overview, plus information on all Coats' balancers and key accessories.
- 10 R.I.D.E.**
Complete collection of free printable merchandising materials (posters, counter cards, and useful consumer literature) that can be used to promote premium balances and increase revenues.

*3Di only

Easy Balancing Complete With Direct Tape-A-Weight And Behind The Spoke Modes.

Simple, Interactive User Interface

Real-time 3-D animated graphics and visual cues promote proper balancing techniques and faster floor-to-floor times. **Static on Screen™**, a simultaneous display of static and dynamic data, identifies any excess residual static imbalance.

Premium Balancer Features

The XR 1750 features a touchless digital data collection system that takes the measurements for the technician. There's also a direct Tape-A-Weight locator and a best in class behind the the spoke mode for balancing today's more complex wheel designs. **In fact, the XR 1750 can do most Tape-A-Weight balances in just one spin.**

The Easiest Premium Balancer To Operate

Every step of technician activity has been carefully planned for speed and accuracy. The XR 1750 has a slide nut for faster mounting, automatic starting when the hood is dropped, video and sound indications of when the weight is properly positioned, and even a complete onboard training mode.
